William J. Casey, Director Central Intelligence Agency Washington, D.C. 20505

Dear Mr. Casey:

Please allow me to introduce myself. I am the Director of INTELLIGENCE DEVICES CORPORATION. IDC supplies law enforcement and government agencies with electronic investigative equipment. Our staff of sales representatives and engineers are here not only to sell you existing systems, but also to design custom equipment for your particular needs.

Copies of our catalog are available only in response to an official written request on departmental stationery. This is due to the sensitive nature of our equipment.

After requesting and receiving our catalog, should you wish to set up an appointment with one of our representatives so he may help you analyze your equipment requirements and recommend a workable system within your budget limitations, please contact our main office. At that time we will arrange a mutually convenient date. INTELLIGENCE DEVICES CORPORATION also offers complete financing and a rental plan so as not to tie up your budget dollars.

I am eager to hear from you in the very near future. If you have any questions, please do not hesitate to call. Our hours are 9 a.m. to 3 p.m., Monday through Thursday.

Very truly/yours

RICHARD DI SABATINO, DIRECTOR

We supply the most sophisticated electronic intelligence devices available to law enforcement, but Federal law prohibits us from discussing our products in detail without the proper written requests.

The purpose of this publication is to furnish some idea why Intelligence Devices Corporation leads the industry in the technical intelligence field. Because we limit our activities exclusively to electronic devices for authorized law enforcement, governmental intelligence agencies, and the security industry, we can give your needs our full attention. Our organization draws upon the special talents and experience of many professionals in providing a comprehensive service.

Complete and detailed product information is available only to authorized agencies upon written request on departmental letterhead.

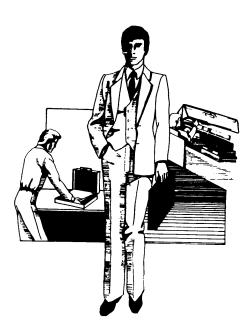

AVIONICS

Our avionics section can expertly install or modify surveillance devices on all aircraft, either fixed or rotary wing. Our parking lot can be reached via private taxiway from The Essex County Airport.

<u>AUTOMOTIVE</u>

Vehicular equipment is installed by our automotive department, which is equipped and staffed to handle installations for virtually any surveillance task.
